

The Technology **Futurist Award**

TVNewsCheck's **Technology Futurist Award** recognizes women who have pioneered new technologies or who have significantly influenced the development of media industry technology. Presented each year at the National Association of Broadcasters Convention in Las Vegas, the Women in Technology Awards support the NAB Leadership Foundation's Technology Apprenticeship Program, which provides training and industry internships to graduating engineers who are women or people of color.

To nominate a colleague or yourself:

1. Please fill out this form completely
2. If necessary, include a second page describing the specific ways in which the nominee has been identified as a rising star in technology. Include awards, scientific papers, work on technology committees, career advancements
